The effect of such a deed shall be to convey said property free and clear of all liens and encumbrances, except state, county and municipal taxes, assessments or taxes levied or assessed by statutory authority, and any water district assessment or portion thereof remaining unpaid at the date of said sale. If the district has not yet received a deed to the property, it shall not be sold for less than the amount that would be required to redeem it. If the district has received a deed to the property, it shall not be sold for less than the amount that would have been required to redeem it on the day before the district became entitled to a deed, together with interest on said amount at the rate of seven per cent per annum from that time. Any property held by the district under a certificate of sale may be redeemed at any time before the district has received a deed to it for the amount at which the property was sold to the district, together with interest thereon at the rate of two per cent per month from the date of such sale."

SACRAMENTO, May 15, 1923.

To Whom It May Come, Greeting.

WILLREAS. For a great many years organized labor and child labor organizations of the State of California have been endeavoring to protect the street trades children and place them under the protection of the child labor laws of the State.

WHEREAS, Assembly Bill No. 810, which passed the Assembly and was recommended by the Senate Labor and Capital committee "do pass", was defeated in the Senate May 14, 1923, by the corporation-controlled Senators and weaklings who were afraid of the newspapers and had to vote against Assembly Bill No. 810 on instructions from the representatives of the publishers, therefore be it

Resolved, That the Sacramento Federated Trades Council commend the action of the following Senators in voting for the bill:

Senators F. S. Boggs, J. Creighton, L. L. Dennett, E. S. Hurley, J. M. Inman, M. B. Johnson, H. C. Jones, W. A. McDonald, D. C. Murphy, and F. J. Powers.

"Sec. 12. The reclamation board shall have power to acquire either within or without the boundaries of the district, by purchase, condemnation or by other lawful means, in the name of the Sacramento and San Joaquin drainage district, from private persons, corporations, reclamation, swamp land, levee, protection or drainage districts, or other organizations or associations, all lands, rights of way, easements, property or material necessary or requisite for the purpose of by-passes, weirs, cuts, canals, sumps, levees, overflow channels and basins, reservoirs and other flood control works, and other necessary purposes, including drainage purposes; to construct, clear and maintain by-passes, levees, canals, sumps, overflow channels and basins, reservoirs and other flood control works; to construct and maintain ditches, canals, pumping plants, and other drainage works and to operate the same; to make contracts in the name of said district to indemnify or compensate any owner of land or other property for any injury or damage caused by the exercise of the powers by this act conferred, or arising out of the use, taking or damage of any property for any of such purposes; *provided, however,* that the reclamation board shall have no power, authority, or jurisdiction, either directly or indirectly, except as herein-after provided in section thirteen of this act, to hereafter incur any indebtedness or expend any money or adopt or carry into effect any plan or project or to acquire any lands, rights of way, or easements, or to do any work, or cause any work to be performed, for which any land lying within the Sacramento and San Joaquin drainage district shall be assessed, save and except to maintain, repair, and operate its existing works of reclamation and flood control and to complete, maintain and operate any project adopted by said board prior to April 1, 1923, with the existing powers to levy assessments therefor. The board shall also have power to maintain actions in the name of the people of the State of California to restrain the doing of any act or thing that may be injurious to any of the works necessary to said plan of flood control or that may interfere with the successful execution of said plan or for damages for injury thereto, and any damages so recovered shall be deposited with the state treasurer to the credit of said district and shall be applicable to the payment of warrants against any assessment for the particular portion or project affected by such injury; to establish a standard of levee construction; to do any and all things necessary or incident to the powers hereby granted or to carry out the objects specified herein; to maintain actions in the name of the people of the State of California to compel by injunction the owner or owners of any bridge, trestle, wire line, viaduct, or embankment or other structure which shall be intersected, traversed or crossed by any by-pass, drainage canal, or overflow channel, so to construct or alter the same as to offer a minimum of obstruction to the free flow of water through any such by-pass, drainage canal, or overflow channel, and wherever necessary in the case of existing works, to compel the removal or alteration of any such embankment or other structure; to maintain actions in the name of the people of the State of California to restrain the diversion of the waters of any stream that will increase the flow of water in said Sacramento or San Joaquin rivers or their tributaries, and such diversion of the waters of any stream into said rivers or either of them or any of their tributaries, is hereby declared to be a public

nuisance which may be prevented or abated by the reclamation board; to dispose, by sale, exchange, in payment for work done or services rendered, or for any other purpose which the reclamation board might deem advisable, of any land, property, material, equipment, or any other thing in the possession of the Sacramento and San Joaquin drainage district, which, in the opinion of the reclamation board, is no longer needed for the purposes of flood control works or other necessary or convenient purposes.

In case any land, right of way or easement is or shall be needed for any work of channel excavation, enlargement, rectification or control, or for the construction of any weir, which is a part of the plans to be carried out as contemplated by this act, and which is to be done or constructed in whole or in part by the United States or by the State of California and it is or shall be necessary or be required by the United States or by the State of California before doing such work or constructing such weir, that such land, right of way or easement be conveyed to or provided for the use of the United States or the State of California free of cost, the reclamation board shall have power to acquire such land, right of way or easement and cause the same to be conveyed to the United States or to the State of California free of cost, or to be condemned for the use and in the name of the United States or the State of California in the manner provided by the laws of this state or of the United States, and to pay the cost and expense of acquiring such land, right of way or easement out of the funds of any assessment by said board applicable thereto; or if such land, right of way or easement is or shall have been already acquired by said reclamation board in the name of the Sacramento and San Joaquin drainage district, the said board shall be and is authorized to cause the same to be conveyed by said district to the United States or to the State of California free of cost.

Whenever any work to be done by the reclamation board or the Sacramento and San Joaquin drainage district under any of the provisions of this act is such that it can be so done in connection with work of public improvement of rivers and harbors authorized by the United States government as to bring it within the provisions of section four of the United States river and harbor act approved March 4, 1915, authorizing the receipt by the United States government agencies of funds to be contributed for expenditures in connection with funds appropriated by the United States for such work, then the funds under the control of the reclamation board and available for such work, or so much as may be necessary, may be contributed by the reclamation board to the United States government under the provisions of said section of said river and harbor act in order that the work may be done in the manner thereby contemplated.

Sec. 2. Section thirteen of said act, approved December 24, 1911, as amended, is hereby amended to read as follows:

Sec. 13. Whenever in the opinion of the reclamation board it shall be necessary to levy an assessment upon any lands within said drainage district for any of the purposes herein specified, including the expenses of bonding said assessment if authorized by law, said board shall adopt plans therefor and shall make careful estimates of the costs and expenses thereof. The plans to be carried out shall be divided by said board into separate portions or projects in such manner as will in its judgment best facilitate the levying of assessments for each particular portion or project in a just and equitable manner according to benefits upon the lands in said district affected by such portion or project; *provided, however*, that each separate and particular project or unit shall include all by-passes, cuts, canals, sumps, levees, pumping plants and other works of flood control and drainage as shall be necessary by reason of the carrying out and construction of the particular project, to properly conduct the water of any stream, natural or otherwise, the outlet of which has been intercepted by the construction of any levee or embankment included in such project or unit into such by-pass.

Said board shall enter in the minutes of the board a resolution to the effect that the execution of each such separate portion or project which they may determine upon is a public necessity. Each such particular portion or project shall be designated by the board in such resolution by name and number. All assessments, plans and funds intended for or connected with the execution of each particular portion or project shall be designated by such name and number and shall be kept separate and shall be used only for the purpose of carrying out such particular portion or project. Thereafter the board shall appoint three assessors who shall be disinterested persons, and shall have no interest in any real estate within said drainage district, and each of whom, before entering upon his duties, shall make and subscribe an oath that he is not in any manner interested in any real estate within said district, directly or indirectly, and that he will perform the duties of an assessor to the best of his ability. Said assessors shall be exempt from the provisions of the civil service laws of this state. After said assessors have examined the plan or plans of the works contemplated and the estimates of the cost, they shall make a preliminary report to the reclamation board indicating the exterior boundaries of the lands that in their opinion will be benefited by the expenditures. The assessors shall then appoint a time and place in each county in which any of said lands proposed to be assessed are situated, when and where they will hear objections to the said report and also evidence concerning the manner in which said assessment should be apportioned. They shall give notice of such hearing in each of such counties by publication in a newspaper published in such county once a week for three weeks, the first publication to be not later than the

twenty-first day before the day of hearing, which notice shall contain a general designation of the lands which will in their opinion be so benefited, as aforesaid, and shall refer to said preliminary report on file in the office of the reclamation board for such exterior boundaries.

Said assessors, may amend, modify or change the exterior boundaries of the lands that, in their opinion, will be benefited by such expenditures.

If, within six months after the completion of said hearings there is filed with the board, written consent to such contemplated project, signed and acknowledged by the owners of land representing sixty-six per cent of the value of the land excluding improvements within the district, as described in the preliminary report of said appraisers, or as modified thereafter, as such value is shown by the last preceding county tax assessment roll of the county in which said land is situate, and also written consent to such contemplated project, signed and acknowledged by sixty-six per cent of the owners of land within said district as described in said preliminary report, or as modified thereafter, the board shall cause an assessment to be levied in the manner and form hereinafter provided.

Said assessors must assess upon the lands within said drainage district proposed to be assessed for the plans adopted by the reclamation board the said sums included in the estimates of said board, and shall apportion the same according to the benefits that will accrue to each tract of land in said district, respectively, affected by any particular portion or project by reason of the expenditure of said sums of money.

In determining the benefits that will or may accrue to each particular tract of land by the construction or maintenance of the works contemplated by any particular project or unit, the works of such project or unit shall be considered as a whole and lands shall be assessed for the works embraced in such project or unit only in the proportion that they will or may be benefited by the construction of the entire works embraced in the said project or unit, and no lands shall be considered as benefited by the construction or maintenance of the works embraced in such project or unit, or any part or portion thereof, nor shall any lands be assessed for the expense of the construction or maintenance of such project or unit or any part or portion thereof, because such lands have been or may be first endangered or flooded, or the natural drainage thereof obstructed by the construction or maintenance of any part or portion of the works embraced in such project or unit in advance of or prior to the completion of the construction of the entire works embraced in such project or unit.

Said assessors shall make a separate list of the lands so assessed in each county, which list shall contain a description of the tracts of land assessed by swamp land surveys, legal subdivisions, or other boundaries or references sufficient to identify the same, the name of the owner, if known, or if unknown, that fact, and the amount of the charge assessed against each tract. The name of the owner of land which is or is supposed to be the property of the estate of a deceased person in course of administration may be stated as estate of (such person, naming him), deceased. When there are two or more owners or supposed owners of any tract of land, partly known and partly unknown, the assessment may be to such known owner or owners by name and to other owners unknown. No mistake in the name of the owner, or supposed owner, of any real estate shall invalidate the assessment. In the assessment list for any county the assessors may make use of any abbreviation in common use in that county, without explanation thereof. The assessors may also in the assessment list for any county make use of other abbreviations, provided a schedule and explanation thereof with reasonable certainty shall, unless printed on each page of such assessment list, be prefixed to said assessment list and a reference thereto written, printed or stamped on each page of said assessment list whereon any such abbreviation is used. In case any land shall in the assessment list for any county be described in whole or in part by reference to a map, plat or survey, which map, plat or survey shall be on file or of record in any public office, it shall be sufficient in such description to designate such map, plat or survey by name, number or other designation sufficient to identify the same in a schedule of such maps, plats and surveys, which schedule shall be prefixed to said assessment list and shall set forth with reasonable certainty where each such map, plat or survey may be found, and shall be referred to by a reference written, printed or stamped on each page of said assessment list whereon such method of description is relied upon. The assessors appointed for any assessment may also prepare or cause to be prepared a map or maps of the whole or any part or parts of the lands to be assessed with sufficient detail to indicate thereon and identify the several tracts of lands to be separately assessed or any of them, each of which such separate tracts shall be designated on such map or maps by a distinctive number. Each of such maps shall be inscribed and designated as "reclamation board assessment map No. ..." giving each map a distinctive number. Any such map may consist of any number of sheets attached together and designated as one map. Such map or maps when approved by the reclamation board, shall be certified by the secretary of said board as having been so approved, and shall be filed for record in the office of the county recorder of the county wherein the land indicated on such map or maps is situated. There-

upon and thereafter, for the purpose of said assessment, or of any future assessment levied by said reclamation board, the assessment list for any county may, for the description of any tract of land so indicated on any such map, refer to such map and to the number by which such tract is designated on such map, and such reference, if used for that purpose, shall be a sufficient description of such tract for the purposes of such assessment list, and for the purposes of the notice of delinquent sale, certificate of sale and deed in pursuance of such sale, and all other proceedings under this act based upon such assessment. No provision of any other statute of this state relative to the filing or recording of maps in the office of the county recorder shall apply to the maps in this section referred to; *provided, however*, that the maps herein referred to shall have no legal effect for any purpose except for the convenient reference to and description of the tract of land indicated thereon for the purposes of description of such tracts of land by reference thereto in the matter of assessments levied by the reclamation board and acts and proceedings based thereon as herein provided. No fee shall be charged by any such county recorder for the filing for record of such map as in this section provided. Said lists when completed shall be filed with the secretary of the board and said secretary shall forward to the county treasurer of each county in which any lands so assessed are situated, the assessment list for such county, and the same shall be open for inspection by the public for at least sixty days. The compensation of said assessors shall be fixed and allowed by the board. The reclamation board shall appoint a time and place not less than sixty days after said list has been filed with the county treasurer when and where it will meet in each county wherein any of the lands so assessed are situated for the purpose of hearing objections to said assessments, and notice of such hearing in each county shall be filed with the county treasurer and published once a week for four weeks in some newspaper published in such county. At any time before or during such hearing any person interested in any land upon which any charge has been assessed, may file in the office of the reclamation board or with any member thereof, written objections to such assessment, stating the grounds of such objections, which said statement shall be verified by the affidavit of such person or some other person who is familiar with the facts. At such hearing, the board shall hear such evidence as may be offered touching the correctness of such assessment or the manner of its apportionment, and may modify or amend the same, and may reapportion all or any part of the entire assessment. Unless the aggregate amount of the whole of such assessment shall be modified or amended by the reclamation board so as to cause a difference of more than two and one-half per cent greater or less than the original total amount of said assessment, it shall be deemed that the assessment has not been substantially modified and no necessity shall exist for a reapportionment thereof.

If said assessment shall be reapportioned the board shall give two weeks notice as before and proceed to hear objections in each county affected, as before, and shall then reconsider said assessment and make an order approving said assessment as finally fixed; and the decision of said board shall be final, and thereafter said assessment list shall be conclusive evidence, except in the suit hereinafter provided, that the said assessment has been levied and apportioned according to law. Any person interested, as aforesaid, in any land upon which any charge has been so assessed, aggrieved by the decision of the board approving said assessment, may commence an action against the district in the superior court of the county in which said land or the greater part thereof is situated, to have said assessment upon such land modified or annulled. Such action must be commenced within sixty days after the reclamation board has approved such assessment and the assessment list for such county has been deposited in the office of the county treasurer as provided in the next section, and shall have preference over all civil actions in fixing the time of trial.

Whenever an assessment has been levied by the reclamation board upon lands in said district for general administrative expenses and other expenses not pertaining to any particular project, and the boundaries of said district have been or shall be extended so as to include lands other than the lands included within said district at the time such assessment was levied, the reclamation board shall make an estimate of the fair and equitable amount which should be contributed by the lands so included in the district by such change of boundaries for the purposes of such assessment previously levied by said board for general administrative expenses and other expenses not pertaining to any particular project, and shall levy and cause to be assessed, equalized and collected in the manner in this act provided, an assessment to the amount of such estimate upon lands so included in the district by such change of boundaries, according to benefits in the manner in this act provided.

In the event that consent in writing be not filed in the manner and at the time hereinbefore provided, no further expenditures for said project shall be made, nor shall any obligations be incurred therefor; *provided, however*, that the board may cause an assessment to be levied in the manner hereinbefore provided for the purpose of paying the necessary engineering and other expenses in preparing the plans for said project, in making the preliminary report of said assessors and in holding the hearings thereon.

SEC. 3. Section fourteen of said act, approved December 24, 1911, as amended, is hereby amended to read as follows:

Sec. 14. After the reclamation board has held the hearings in each county pursuant to section thirteen of this act and the assessment lists have been made to conform with its decision, said lists shall be certified by the secretary of the board to be correct, and shall thereupon be filed in the offices of the county treasurers, respectively, of the several counties in which are situated any of the lands assessed thereby. Each such county treasurer shall endorse thereon the date and time to the hour and minute when the same was so filed in his office; and thereafter from that time such assessment shall constitute a lien upon the lands so assessed in such county, and shall impart notice to all subsequent purchasers or incumbrancers or any person acquiring any interest in or lien upon said lands. The assessment shall then be paid to the respective county treasurers in one or more installments of such amounts, and at such times, respectively, as the board, from time to time, in its discretion, may, by order entered in its minutes, direct.

At the time within thirty days after said assessment list has been so filed in the office of the county treasurer as provided above, the whole amount of such assessment upon any tract of land therein separately assessed may be paid in cash to the county treasurer and thereupon the county treasurer shall issue his receipt therefor and shall endorse the fact and date of such payment upon the assessment list, and thereupon the lien of such assessment upon such tract of land shall cease. No interest shall be charged on any assessment paid in full within this thirty-day period. All assessments not paid in full within said period of thirty days shall bear interest at the rate of seven per cent per annum from and after the time when the assessment list is filed in the office of the county treasurer for collection. The remaining portion not yet ordered paid by said board of the assessment upon any tract of land may be voluntarily paid in full, with the accrued interest thereon, at any time after the lien of such assessment has accrued.

If any installment shall remain unpaid at the expiration of thirty days from the date of the board order calling said installment, then said installment shall become delinquent, together with accrued interest thereon to date of delinquency. When any such installment shall become delinquent, a penalty of one dollar, together with ten per cent of the amount of such installment plus interest, shall be added thereto and collected for the use of the district; *provided*, that if any action is pending in any court to have the assessment on any tract of land reviewed, modified or annulled, as provided herein, such assessment, if not annulled in said action, may, in the discretion of the board, become delinquent thirty days after any judgment rendered therein shall become final. From date of delinquency until time of delinquent sale, such unpaid installment, together with added interest and penalty, shall bear interest at the rate of seven per cent per annum.

After the said installment has become delinquent, the board, when it shall deem it advisable, shall publish in each county where such delinquencies exist, at least once a week for two weeks in some newspaper of general circulation published in the said county, a list in one notice of all said delinquencies in such county which notice shall contain a description of the property assessed as described in the assessment list or by other descriptions sufficient to identify the same, the name of the owner to whom it is assessed or a statement that it is assessed to unknown owners, if such is the fact, the amount of the delinquent installment, interest and penalty as above provided, and a further notice that each of said parcels will be sold at public auction by said county treasurer in front of the court house of said county at a specified day and hour, to pay said installment with accrued interest and the penalty, together with its proportion of the total cost of publication of said notice of sale.

At the time and place stated in said notice, or such other time to which said sale may have been postponed, the county treasurer shall sell each parcel of land described in said notice to the highest bidder for gold coin of the United States unless prior thereto he shall have received payment in full of said delinquent installment, interest, penalty and cost of publication. If not completed on the first day the sale may be continued from day to day and over Sundays and legal holidays until completed. No license shall be required of the county treasurer for conducting such sale. No bid for any parcel shall be accepted which is less than the aggregate sum then due for said installment thereon, together with accrued interest, penalty and cost of publication. If no bid is made for any parcel at such delinquent sale which is equal to the total amount then due thereon, the county treasurer shall bid in and sell said parcel to the said Sacramento and San Joaquin drainage district for the amount of said delinquent installment or installments, together with accrued interest, penalty and cost of publication.

The county treasurer shall execute to each purchaser at such delinquent sale including said drainage district, a certificate of such sale, which certificate of sale shall be recorded by said purchaser in the county recorder's office of said county. Out of the proceeds of said sales the county treasurer shall transmit to the state treasurer the total amount then due on the property so sold as shown in said notice, and shall pay to the owner of said property any surplus remaining after such payment to the state treasurer. The county treasurer shall, when directed by the reclamation board,

postpone the said delinquent sale from time to time for not less than ten nor more than thirty days by a written notice posted at or near the place of sale, which written notice shall be substantially as follows: The sale of property for delinquent assessment under (name and number of assessment) of the Sacramento and San Joaquin drainage district, which was fixed for (time and place of sale) has been postponed to (time to which postponed) at the same place.

Any person interested in any tract of land sold at such delinquent sale may redeem the same at any time within one year after the date of sale by paying to the county treasurer for such purchaser a sum equal to the purchase price stated in the certificate of sale with interest thereon at the rate of twelve per cent per annum from the date of sale to the date of such redemption, together with the amount remaining due and unpaid of any installment upon any assessment on said land under the reclamation board act, with the penalty prescribed above for such other delinquencies. If no redemption shall be made within one year the reclamation board upon demand and the surrender of such certificate of purchase and the delivery of a certificate of the county treasurer that no redemption has been made within such year from date of sale, shall execute to the purchaser, his heirs or assigns, a deed of conveyance of the parcel of land described in such certificate, which deed shall convey to the grantee therein named the said land free and clear of all encumbrances except state, county and municipal taxes, assessments levied or assessed by statutory authority, and the unpaid balance of said or any assessment made by said drainage district, which said balance must be called in and collected in the same manner as other assessments, except that no parcel sold and conveyed to the Sacramento and San Joaquin drainage district shall thereafter, until redeemed or until sold and disposed of by the reclamation board, be subject to sale by the treasurer for subsequent installments of the said or any assessment as in this act provided.

Each deed by the reclamation board purporting to be executed under this act shall be prima facie evidence of the truth of the matters therein recited and of ownership by grantee of the lands therein described. All deeds herein required to be executed by the reclamation board may be executed by the president and secretary thereof on behalf of said board. Any parcel of land bid in and purchased by the Sacramento and San Joaquin drainage district at such delinquent sale shall be held in trust for the assessment under which the same was sold and may be sold and conveyed by said reclamation board or their successors in office at any time after the expiration of said redemption period of one year at public or private sale and with or without notice, to any person paying not less than the amount for which said parcel was bid in by said county treasurer at such delinquent sale for said drainage district, with interest thereon at the rate of twelve per cent per annum compounded yearly from the date of such delinquent sale, and also the amount of all subsequent installments, or other assessments then delinquent, with accrued interest and penalties thereon.

Payment for the land so purchased shall be made in gold coin of the United States, and the reclamation board shall execute a deed to such purchaser at such sale conveying said property, free of all encumbrances except state, county and other municipal taxes, assessments levied or assessed by statutory authority and the unpaid balance of all assessments of said drainage district, which balance must be called in and collected in the same manner as other assessments. If any lands so held by said drainage district remain unsold then the reclamation board shall sell all such lands so held by said drainage district at public auction to the highest bidder for cash, upon two weeks published notice substantially in the manner provided for notice upon above delinquent sales, and shall execute to the purchaser a conveyance, which deed shall convey title to the land as above prescribed. The proceeds of such sale shall be deposited with the state treasurer to the credit of the assessment under which the property became delinquent.

No county or public officer shall charge or receive any fee for any of the services required to be performed by him under the provisions of this act; but any reasonable and necessary expense actually incurred by any officer in carrying out any of the provisions of this act relating in any manner to the collection or enforcement of any assessment, shall be paid out of the funds of said drainage district applicable thereto.

Sec. 4. Section seventeen of said act, approved December 24, 1911, as amended, is hereby amended to read as follows:

Sec. 17. The reclamation board shall have power to promote the construction, completion, maintenance and repair of levees along all rivers, streams, overflow channels and basins and by-passes where, in the opinion of the board, such levees are insufficient or necessary for the purpose of the plans for flood control to be carried out by said board under this act. Whenever any such levee is in the opinion of said board insufficient or necessary for the purpose aforesaid, the reclamation board shall give notice, by publication in the manner hereinafter provided, that such levee is insufficient or necessary, and that it is the intention of said board to construct, repair or complete such levee and pay the cost thereof out of an assessment levied or to be levied and assessed upon the lands within said drainage district directly or indirectly benefited by such levee. Such notice shall be signed in the name of the reclamation board by its president and secretary and shall be published

once a week for three weeks in some newspaper published in the county wherein such levee or the greater part thereof is situated or is to be constructed, and the giving of such notice by publication shall be deemed completed on the twenty-first day after the first publication thereof. Any land owner or owners, and any reclamation district, drainage district, levee district, municipal corporation or other organization or association authorized by law to construct, repair or complete such levee shall have thirty days after completion of the giving of such notice by publication as aforesaid within which to apply to said reclamation board for leave to construct, repair or complete such levee, which application shall be in writing and signed by such applicants or their respective executors, administrators, guardians, trustees or duly constituted and authorized officers, and filed in the office of the reclamation board; and in case such application be filed within thirty days, as aforesaid, such applicants shall have sixty days after the filing of such application, or such further time as said reclamation board may by order entered in its minutes allow, within which to present to said reclamation board their plans and specifications for the construction, repair or completion of such levee, and obtain the approval by said board of such plans and specifications, and to commence the work. Each such application for leave to construct, repair or complete such levee shall designate the name and post office address of at least one and not more than three of the applicants signing the same as the person or persons to whom any notice or communication may be addressed by the reclamation board in the matter of such application. In case there shall be two or more such applications filed in the office of the reclamation board within said period of thirty days last above mentioned the reclamation board may determine which of such applications shall be recognized and may reject the others. Any such levee constructed or work done by such applicants as hereinbefore provided, pursuant to such notice from the reclamation board and according to plans and specifications approved by said board, shall be considered as constructed or done with the permission of said board within the meaning of section eighteen of this act. If such application shall not be filed in the office of said reclamation board for permission to do such work, as aforesaid, within thirty days after completion of the giving of such notice by publication, or if such applicants shall fail to present to said board and obtain its approval of such plans and specifications and to commence the work as aforesaid, within said period of sixty days or such further time as the board may allow, or shall fail to complete such work with reasonable diligence after the same shall have been so commenced, the reclamation board shall thereupon be and is hereby empowered to proceed with the construction, repair or completion of such work, and to pay the cost thereof by assessment upon the lands within said drainage district directly or indirectly benefited by such levee according to such benefits, as in this act provided, which assessment may be either an assessment specially levied and assessed for that purpose, or any assessment levied and assessed by said board and applicable to the payment of such work. Notwithstanding anything in this section provided, if in the opinion of the reclamation board a case of emergency exists requiring immediate action to preserve life or property or to protect or preserve the safety of any such levee along any river, stream, overflow channel or basin or by-pass, the reclamation board may cause the necessary work to be done immediately for the protection or preservation of such levee, without giving the notice hereinbefore provided, and may pay the cost thereof, and any damage that may have been done by the performance of such work, by an assessment to be levied and assessed as above provided, or out of the funds of any assessment available for that purpose under the provisions of this act.

Sec. 5. Section nineteen of said act, approved December 24, 1911, as amended, is hereby amended to read as follows:

Sec. 19. The sum of one hundred thousand dollars, in addition to the sums heretofore appropriated, is hereby appropriated for the use of the reclamation board, at least twenty thousand dollars of which shall be used by the board to pay the expenses of the state engineer in carrying out the directions of this act. The controller is hereby directed to draw warrants upon the state treasurer whenever drafts of the reclamation board are presented to him, and the treasurer is hereby directed to pay said controller's warrants. In the first assessment levied in said district the sum of fifty thousand dollars shall be levied, collected and paid to the state treasurer as reimbursement of one-half of the above appropriation.

WHEREAS, The government of the United States by legislative enactment has withdrawn from public entry and settlement 156,666,045 acres of land in the states of California, Oregon, Washington, Idaho, Montana, Wyoming, Colorado, New Mexico, Arizona, Utah and Nevada, for the purpose of creating national forests; and

WHEREAS, There is now standing on this land nearly 500,000,000,000 feet board measure of merchantable timber; and

WHEREAS, Nineteen million one hundred seventy-two thousand nine hundred eighty-two acres of our national forests are within the confines of the State of California, upon which acreage it is estimated by Honorable William B. WHEREAS, Over 5,000,000,000 board feet of merchantable timber within our national forests has been destroyed by forest fires during the past five years; and

WHEREAS, Over eighteen million acres of national forest lands were by forest fires burned over during the summers of 1918 and 1919; and

WHEREAS, In many instances these national forest fires have spread over large tracts of privately owned timber destroying large tracts of virgin forests and thereby causing tremendous losses to the owners of the land; and

WHEREAS, There is no way known to man whereby these forests may be saved from destruction by fire except in the construction of permanent commercial highways through and adjacent to our national forests so that the ripe timber may be moved to market and so that fire fighters may be taken quickly to the blaze after it has been discovered; now, therefore, be it

Resolved by the Assembly and Senate, jointly, That the Congress of the United States be and the same is hereby memorialized, to provide by appropriation of funds from our national treasury the necessary funds with which to construct a system of highways through and adjacent to our national forests commensurate with their needs of protection against destruction by fire; and be it further

Unless bonds shall have been authorized as hereinafter provided, all such payments shall be made in such amounts or installments and at such times respectively as the said board, from time to time, in its discretion, by order entered in its minutes, may direct. Upon making any order fixing and calling such installment or amount, the secretary shall also enter in the minutes of the board, and certify to each county treasurer for signature and mailing or publication in the counties in which any lands within the district are situated a notice in substantially the following form:

Name: (name) water storage district.

(Location of the principal place of business.) Notice is hereby given that, at a meeting of the board of directors held on _____ an installment of _____ per cent of assessment number _____ was ordered paid within sixty days from the date thereof to the respective county treasurers of the counties wherein lands of such districts are situate. Any installment which shall remain unpaid on the (day fixed) will be delinquent, together with the accrued interest thereon, with ten per cent of such installment and interest added as penalty.

(Signed) _____

Treasurer of _____ County.

Such notice must be sent through the mail, addressed to each owner of land in the district at his place of residence if known or entered upon the assessment roll of the district, and if not known, at the place where the principal office of the district is situated, or in lieu thereof such notice shall be published once a week for two successive weeks in each such county.

Immediately after the said installment has become delinquent the said county treasurer or county treasurers must publish once a week for two successive weeks in each county wherein lands of the district are situate, in one notice a list of all delinquencies in such county, which notice shall contain a description of the property assessed, the name of the person to whom it is assessed or a statement that it is assessed to unknown owners, if such is the fact, the amount then due on said property, and a notice that the property assessed will be sold on the date therein stated in front of the courthouse of said county to pay the amount then due on

Out of the proceeds of said sale the county treasurer must deposit the amount due on said property as shown in said notice to the proper fund of the said district. The county treasurer must pay to the owner of said property any surplus remaining after said deposit to the credit of the district, after first deducting any expense of sale. Except where bonds have been issued upon an assessment the board of directors may direct the county treasurer to postpone said sale from time to time for not less than ten nor more than thirty days at one time, by a written notice posted at the place of sale.

If no bid is made for said property equal to the amount due thereon, it must be struck off to the district for the said amount so due. A certificate of such sale shall be executed by the county treasurer to the purchaser, or to the district if the property shall have been struck off to the district, and this certificate of sale shall be recorded in the office of the county recorder of said county. Any person interested in said property may redeem the same at any time within three years after the date of said sale, by paying to the county treasurer the amount for which the said property was sold, and interest on the said sum at the rate of two per cent per month from the date of said sale, which amount shall be credited to the proper fund of said district.

If no redemption shall be made within said three years, the purchaser or the district, if the property shall have been sold to the district, shall be entitled to a deed executed by the county treasurer or his successor in office, and the effect of such deed shall be to convey said property free and clear of all liens and incumbrances, except state, county and municipal taxes, assessments or taxes levied or assessed by or under statutory authority and any water storage district assessment or portion thereof remaining unpaid at the date of said sale, each installment whereof may be called and collected as herein provided. The board of directors may sell such property sold to the district at any time at public auction after notice given for the same period and in the same manner as is herein provided for sale of delinquent assessments, but not for a sum less than the amount for which said property was sold, with interest at seven per cent per annum, and the deed executed in pursuance of such sale shall convey said property free of all incumbrances except as herein above provided for said deed by the county treasurer."

Relative to an investigation by the Surveyor General of the prevalence of oil upon the beaches along the coast of California.

WHEREAS, There is at the present time a great prevalence of crude oil and petroleum in the waters along such beaches which is washed up on and scattered along the beaches themselves making them undesirable for pleasure purposes and preventing their use and enjoyment; and

Resolved by the Assembly, the Senate concurring. That the Surveyor General of this State be and hereby is authorized and directed to make a complete survey and investigation of such situation and to determine the causes for the presence of such crude oil or petroleum on the beaches and to arrive, if possible, at a method for preventing the same; and be it further

"Sec. 5. Each teacher subject to the burdens of this act shall contribute twelve dollars each school year to the public school teachers' permanent fund for not less than thirty years, and shall pay the twelve dollars to the county superintendent of schools of the county in which the teacher is employed. The teacher must pay six dollars not later than December thirty-first for the half year ending December thirty-first, and must pay six dollars for the half year ending June thirtieth, at the time or before the time of filing his annual report with the county superintendent of schools and not later than June thirtieth of the current school year.

The county superintendent of schools shall issue a receipt in duplicate to the teacher when he makes his payment. The teacher shall file his duplicate receipt with the clerk or secretary of the governing board of the school district in whose service he is employed and the clerk or secretary of the governing board of the school district shall not issue to the teacher his warrant for the school month including December thirty-first nor for his last month of teaching for the current school year until the teacher files with the clerk or secretary his duplicate receipt for the period ending December thirty-first or June thirtieth, as the case may be. The teacher may pay twelve dollars instead of six dollars at the time of making his first payment, in which case the filing of his receipt with the clerk or secretary of the school district shall relieve him from further payments during the current school year.

The county superintendent of schools shall deposit these payments weekly, or oftener, in the county treasury to the credit of the public school teachers' permanent fund, and not later than the fifteenth day of July of each year, and semi-annually thereafter, shall draw his requisition in favor of the state treasurer and against the county auditor who shall draw his warrant on the county treasurer for the full amount then on deposit to the credit of the public school teachers' permanent fund. The requisition of the county superintendent of schools shall be accompanied by a list giving the names of the teachers and the amounts paid by each teacher, and a duplicate of said list shall be sent by the county superintendent of schools to the secretary of the public school teachers' retirement salary fund board. Upon the receipt of such requisition the state treasurer shall collect the same and deposit the proceeds thereof in the state treasury to the credit of the public school teachers' permanent fund; *provided*, that in every city and county which constitutes a separate school district, as provided in section one thousand five hundred seventy-six of the Political Code, the payments herein provided to be made shall be made to the superintendent of schools who shall issue his receipt therefor in duplicate. In such case the teacher shall file his duplicate receipt with the board of education of such city and county and no official, board, or commission whose duty it is to draw warrants or demands for the payment of said teacher's salary, shall draw such warrant or demand for the school month ending December thirty-first unless the duplicate

MESSAGES FROM THE GOVERNOR—(OUT OF ORDER).

The following messages from the Governor were received and read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, May 18, 1923.

To the Senate of the State of California.

Senate Bill No. 633 is returned herewith without my approval.

This bill declares the county road between the city of Bishop and extending through the town of Laws and thence north to the Nevada line to be a State highway.

The Highway Commission has recommended that no more roads be added to the State system at the present time. To put this road into the State system would accomplish nothing as the Highway Commission has no funds to use upon it. At the present time there are hundreds of miles of highways put in the system by legislative action without regard to their importance. It is planned to make, in the next two years, a careful survey of the entire system and decide what roads should be in the system. To lay the matter of this road over for two years can do no harm.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, May 18, 1923.

To the Senate of the State of California.

Senate Bill No. 174 is returned herewith without my approval.

This bill declares a county road between Alturas and New Pine Creek a State Highway.

The Highway Commission has recommended that no more roads be added to the State system at the present time. To put this road into the State system would accomplish nothing as the Highway Commission has no funds to use upon it. At the present time there are hundreds of miles of highways put in the system by

legislative action without regard to their importance. It is planned to make, in the next two years, a careful survey of the entire system and decide what roads should be in the system. To lay the matter of this road over for two years can do no harm.

Respectfully submitted,

FRIEND WM. RICHARDSON, Governor.
